SUPA®

Model V3

This system can safely protect your home anytime without hassle. Easy to control and update when you are away from home. V3 offers the intelligent 8+6 zones system to protect everywhere, anywhere such as apartment, condominium or office.

- Chime mode
- Pre-set timer to on/off system
- Remotely call in/out to on/off system
- Personal reporting format in beeping tones :-
 - Burglary zones 1 to 8
 - Medical
 - Fire
 - Power failure
 - Battery low

Model 10E

This alarm system is far more superior than any other ordinary system with reporting format in beeping tones. It provides more advanced features and reliability.

10E personifies sophistication.

- 10 programmable zones
- 5 Home Automation with feedback
- Individual selection of latch or momentary for Home Automation
- Programmable Home Automation output activated upon alarm being triggered
- Auto ON/OFF of Home Automation output

Advanced Technology

With advanced technology, our panel offers a unique feature in the form of pre-recorded voice either in English or Mandarin during call in/out reporting and status reporting. You can make your choice.

Model 10V

The advanced technology alarm system gives you more flexibility and is user friendly. **10V** offers the ultimate advanced features with 8 home automation and voice feedback. The home automation output can be programmed to activate upon alarm being triggered :-

- 10+2 zones
- Individual selection of latch or momentary for Home Automation
- Voice-assisted programming
- Personal reporting format in voice

Model 20V

An alarm system with excellent features and functions and yet easy to operate :-

- 20+2 zones
- Optional 10 zones expander
- 2 partitions
- 8 HomeAutomation with feedback
- Individual selection of latch or momentary for Home Automation
 - Personal reporting format in voice
- Programmable Home Automation output activated upon alarm being triggered
- 1 electrical appliance can be turned ON/OFF at preset time

Model SP-8

SUPA8 is the pioneer keypad for control panels which have a digital dialler built-in which allows alarm messages to be sent to either a monitoring company or a friend's or relative's telephone.

Of course, good looks have as much to do with function as form. The keypad has large, easy-to-read, soft-touch keys; a hinged door that hides everything out of the way of inquisitive fingers; and a set of simple, no-nonsense status display lights.

- 8 zones
- Sixteen user codes
- Home & Away modes of arming
- Panic, Duress, Test and Quick-arm codes
- Arm / Disarm remotely using any telephone
- Trigger panic from remote telephone
- All inputs like AC, telephone and zones etc. are well buffered with heavy duty lightning protection devices & design
